> ABOUT US

Our company was established in 2006 as a limited company affiliated with the Istanbul Chamber of Commerce.

Our company has been a dealer for the products of important lighting brands in Europe for a while. Later, it continued with the production of specially designed lighting products for hotels and restaurants.

When the quality rechargeable table lamps we produced for special projects started to attract a lot of attention; There has been an intensity of demand. For this reason, we concentrated only on the production of rechargeable table lamps.

We produce products with registered designs under the ONYEDI lighting brand. ONYEDI has all the necessary certificates for rechargeable table lamps.

Our company is preferred by many domestic and international corporate companies. Our company's vision is "What can we give +1?" to our customers.

The most difficult thing for people is "First to understand the customer and determine their real needs." We have set this mission for ourselves.
Best Wishes
